

# HIPLÖK

## Challenges

- Hiplok design and supply a range of award winning wearable bike locks to homes and businesses around the world.
- As a growing business we needed to growth with them. Being flexible was a must.
- These different customers needed a range of different information on the boxes so re-working was a key requirement.
- As a new company trade shows are a massive part of brand awareness and future growth and getting stock and displays to all corners of the world was imperative.

## Solutions

We partnered with key logistics firms to ensure precise and accurate delivery of all products no matter how big or small.

We have a flexible and accommodating re-working system that allows us to do exactly what the customer needs and our team of Customer Service Representatives keep all parties up to date with the latest requirements.

*“When we started Hiplok we needed a fulfilment partner that we could trust in to deliver our bike locks to customers around the world. We appointed I-fulfil (now DK Fulfilment) and over the past three years, their team have provided tailored picking and packing solutions which have grown with our business, as well as personable account management”*

*“Thanks Nikki and the DK Team!”*
